

Tecumseh High School

Arrival and Dismissal

Parents and students:

After considering the flow of traffic at Tecumseh High School , the administration, transportation personnel, and the sheriff deputy developed the following traffic patterns into and out of the campus area. All vehicles waiting to pick up students after school should park in the parking lot so as not to constrict traffic in the drive directly in front of the South Entrance Tower. We broke the process down into three different zones.

Traffic turning left towards Donnelville will use the driveway beside the Board Office. You can drive around the loop and drop off in front of the east entrance by the Main Office. After school, we ask that you park in the south parking lot by the Board Office. We can not block the traffic along the driveway. Left turns will only be allowed at the the Board Office Exit onto Route 40.

Traffic turning right towards the New Carlisle/Park Layne Area are asked to turn into the campus at Tecumseh Middle School, drive over to the high school and drop off along the west or stadium side of the building. You will then also exit onto Rt. 40 at Tecumseh Middle School. When waiting for dismissal, please park along the parking lot between the high school and middle school. This seems to be the most efficient way to exit the school.

All students coming to school to park should use the middle drive and pull into the south parking lot as has been the practice. After school, cars parked in the south lot should use the board office side to turn left and the middle driveway for turning right towards St. Rt. 571.

Please check the website for updated information and a map.

The safety of our students remain our first priority and I ask that we practice patience and caution as we arrive and leave.

Thank you for your patience,

Sincerely,

Ivan A. Gehret
