

Tecumseh Tidbits

The Week of October 14, 2019

Around the Classrooms of New Carlisle Elementary

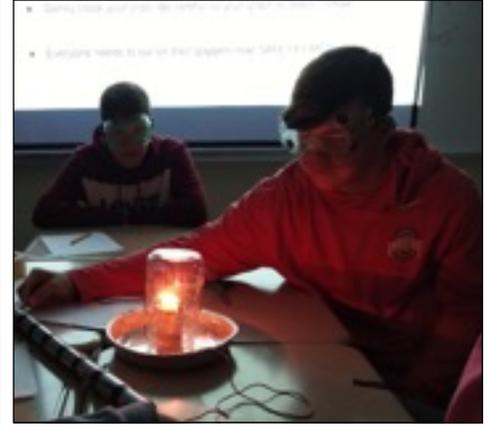

To submit content or event information for Tecumseh Tidbits, please email lisa.moon@tecumsehlocal.org

Sophomores Create Lights Out of Everyday Items

Mrs. Perkins' sophomore English students saw the light in class last week. Well, actually, they created it. The students took batteries, wires, jars and pencil lead and combined these things to make a light. This tied in with the dystopian novel "Anthem" by Ayn Rand where the main character secretly creates a light and then gets in trouble for being different when he shares it with the leaders of his community.

Resource Center Moves to Medway Building

The Resource Center for Tecumseh Local Schools moved over the summer to their new office located in the Medway building. This office houses the district technology offices as well as the Head Start program. At this same time the Arrow School of Advancement moved from Medway to the high school, providing the ASA students the opportunity to also take classes offered at THS.

Pictured to the right are (sitting) Judy Cox and Andee Circle, (standing) Traelin Hoover, Veronica Cassidy and Jenny Riffell. Medway staff not pictured include Dan and Dawn Medve, who are the building's custodians and Connie Stocker, who runs the cafeteria.

Mrs. Willardson works with New Carlisle Elementary students, practicing for the Veterans' Day program. The school will present a program on November 11 at 10 a.m. and all veterans and their families are invited.

Veterans' Day Activities Around TLS

On November 11 all of the schools in the Tecumseh Local District will be honoring our veterans with various events. All veterans and their families are invited to attend. Here are the locations and times-

- Tecumseh High School- 7:30 a.m.
- Donnelsville Elementary- 8:15 a.m. breakfast and 9:00 a.m. program
- New Carlisle Elementary- 10 a.m.
- Tecumseh Middle School- 12:45 p.m.
- Park Layne Elementary- 1:30 p.m.

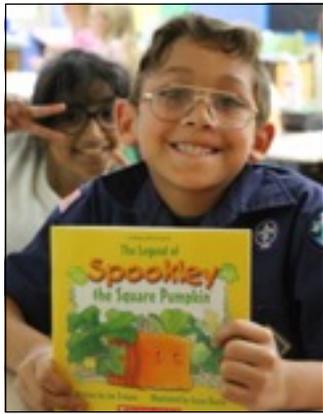

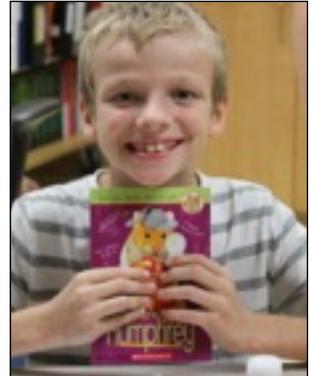

Third Graders Enjoy New Books Every Month

Mrs. Morrow reached out to friends and family on Facebook and their generosity is paying off for Donnelsville students. By simply asking people to donate \$9 a year to "sponsor" a student, she is able to get 9 different books, a new one each month. The response was overwhelming when she began this last year and she was able to get books for eight of the 3rd grade classes (one teacher is doing this on her own).

If people are interested in sponsoring a student, the new donations would go toward the 2nd grade class. Anyone who would like to sponsor a student may send a \$9 check made out to Scholastic to Donnelsville Elementary.

Pictured are the students enjoying their new books and writing thank you notes to the individuals who sponsored them. As students wrote their thank you notes they reviewed the correct letter writing format as a class and discussed what to put in their letters.

Charles Smith Chosen Industrial Technology Student for October

Congratulations to Charles Smith for being selected, Industrial Technology 's Student of the Month. Charles is an exceptional student in the metalworking class. He maintains a high grade point average and is an independent worker with innovative ideas. His help with the operation of the lab is appreciated and he is willing to help his class mates. He will receive a certificate and a gift card for Ace Handyman Hardware from Doorslammers.com, a video game for Iphone and Android.

Tecumseh High School Students of the Week for Oct. 14

Congratulations to Jaylynn Mustaine for being selected Student of the Week for October 14. Jaylynn does an excellent job working in the library and is kind and helpful to everyone who comes in. She is also very patient and is a good listener.

Riley Bolin has been selected Student of the Week for October 14. Riley was chosen due to the kindness he shows towards his classmates and teachers. He is a conscientious student who works hard and is willing to lend a helping hand. Congratulations, Riley!

Located in the high school cafeteria is the Take What You Need bulletin board. The board is full of colorful notes with different phrases to inspire, cheer or bring a smile. The board is replenished every morning, so students are always able to find what they need.

Anatomy and Physiology Seniors Create and Label Skeletons

While studying the skeletal system, students in Mrs. Wright's Anatomy and Physiology class created and labeled their own skeletons. They had to include the cranium, vertebrae, pelvic girdle, pectoral girdle, thoracic cage, upper and lower limbs in their drawings.
