Fourth Graders Present Historical People at Wax Museum

Half of the fourth grade class at New Carlisle Elementary presented their Wax Museum display on May 4. Each participating student chose a historical figure and then researched to learn all they could about their person. Students then wrote a biography about that person, memorized the facts, put together an appropriate costume and prepared to present their historical figure at the Wax Museum. The day of the event, students lined up around the gym and prepared for guests. Parents, staff members and other students walked around the gym to each participant. Each student in the Wax Museum had a sticker on their arm and when pressed, each one gave the biography of their historical figure. The other half of the fourth graders will be holding their Wax Museum on May 11.

THS Students Compete at CBC Cup

Mrs. Laura Wright's class traveled to Graham High School on May 5 to compete against other schools in the CBC. THS wished the students good luck as they prepared to leave by holding a clapout and Deputy Loney gave their bus a police escort to the Champaign County Line. The students each had a buddy go with them and had been practicing their events for several weeks. Everyone did a great job and had a memorable day!
