

Back to School 2023

## Park Layne Elementary Students Learn Bus Safety

To keep students safe as they start the school year the TLS transportation department spent time with PLE students talking about proper bus behavior while traveling to and from school. Some of the main points included how to wait for the bus and how to cross the street safely and to always watch the driver for their hand signal on when to cross. Students also learned to always remain seated, stay out of the aisle, to not yell to keep their hands to themselves.

## Sign Language New Class Offering At Tecumseh High School

THS students now have the option of learning sign language in high school. The new class, taught by Tecumseh grad Kristi Ryles, is offered three times a day this year. Pictured below are students participating in a review game called Fingerspelling Relay.

Right: A giant sunflower takes over one of the flower boxes outside of New Carlisle Elementary.

## Principles of Foods Students Learn the Importance of Hand Washing

In the Principles of Foods class Mrs. Lynch recently discussed the importance of hand washing before preparing food. She had students put a lotion called Glo Germ on their hands and then go to the sinks to wash. When they were finished Mrs. Lynch used a black light to see if any of the lotion remained, so students could see how well they removed "germs" during hand washing.
